

# LUNASTONE<sup>™</sup>

TrueOverDrive<sup>®</sup>

## *The Pusher*

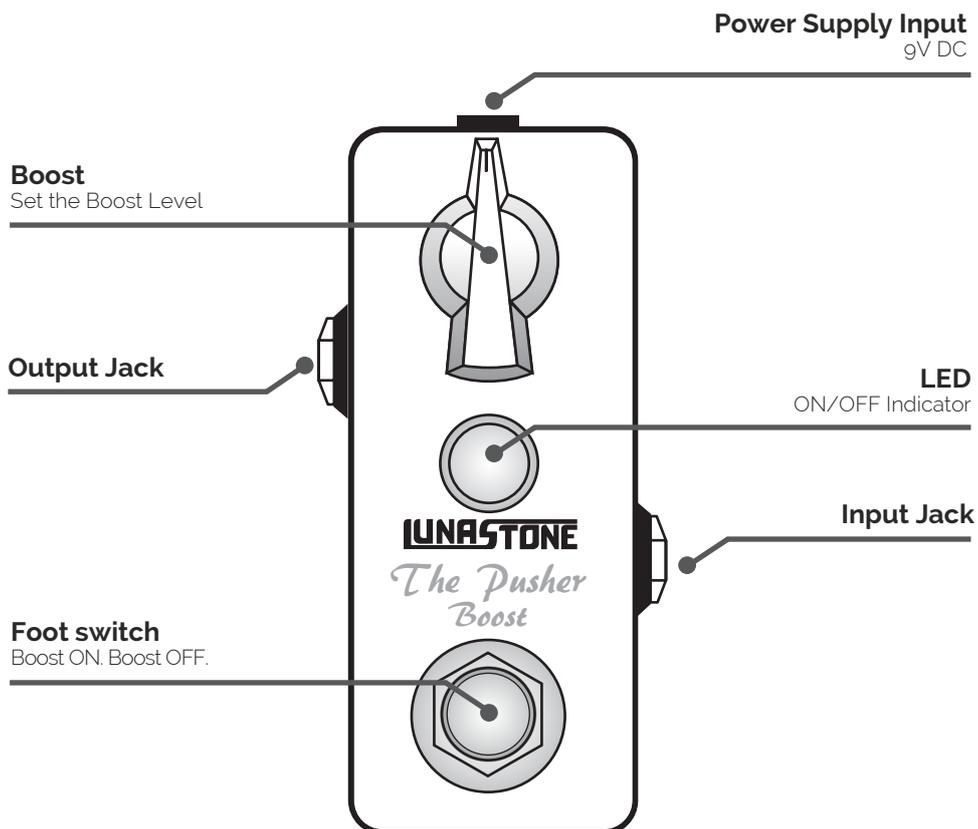

Pushing the Envelope of Clean Boosting

This pusher deals in pure power! He is a small yet persuasive friend to have, and he packs a mighty punch.

Whether you want to push your tube amp into natural overdrive or you just need to lift your solos above the rest of the band, the Pusher always deliver pharmaceutical-grade, clean goodness!

It is also great for pushing your favorite overdrive or distortion pedals into saturation bliss, coloring your lead sound with clarity, slight compression and loads of sustain.

Plug. Play. Enjoy!

**POWER:**

9V DC (negative center)
